“The Technology of Personal Attention”

We Are Proud To Represent the Following Product Lines

INDIUM Corporation www.indium.com

Manufactures Interconnect Materials used primarily in the Electronics Assembly Industry.

ITW EAE www.itweae.com

Camalot: Automated Electronic Assembly Dispensers.

Electrovert: Cleaning Systems, Reflow/Curing Ovens and Wave Solder Machines.

MPM: Advanced Electronic Assembly Printers.

Vitronics Soltec: Reflow/Curing Ovens, Wave Solder and Selective Soldering Machines.

Kyzen Corporation www.kyzen.com

World Leading Provider of Environmentally Responsible Aqueous and Semi-Aqueous Precision Cleaning Products and Services for Electronics and many Manufacturing Operations.

Lista / Arlink Workstations www.listaintl.com

Workspace Solutions and Storage Products: Storage Cabinets, Storage Wall® Systems, Mobile Cabinets and Mezzanines; Workstations: Adjustable Height, Packing and Shipping and Assembly.

Magnalytix www.magnalytix.com

Magnalytix is at the forefront of an ongoing revolution for electronics' cleanliness reliability testing.

NCAB Group USA Inc. www.ncabgroup.com

Single-Source Supplier of All Types of Printed Circuit Boards from Design, Prototype, and Full Production Runs, both Off-Shore and Domestic Capabilities, with Complete Supply Chain Management Capabilities.

Nordson Test and Inspection

Nordson DAGE - The NEW Quadra™ Series X-ray Systems with unbeatable image quality in the shortest possible time: www.nordson.com/en/divisions/dage/x-ray-inspection

Nordson DAGE Component X-Ray Counting Systems – Nordson Dage now offers SMD X-Ray Component Counting Systems: <https://www.nordson.com/en/divisions/dage/products/x-ray-inspection-systems/assure>

Nordson DAGE Wafer X-ray Metrology: www.nordson.com/en/divisions/dage/products/wafer-x-ray-metrology

Nordson MATRIX –High-speed Automated Inline X-ray Inspection systems (**AXI**) and Standalone Semi-Automated X-ray Inspection Systems including High Resolution AXI with CT: www.nordsonmatrix.com

Nordson YESTECH - Automated Optical Inspection (AOI) Systems including Conformal Coat UV Inspection: www.nordson.com/en/divisions/yestech

Universal Instruments www.uic.com

Complete Electronics Assembly Solutions Provider:

Surface Mount Assemblers –Fuzion Series, AdvantisV Series, and Fuzion Odd Form Assembly.

Advanced Semiconductor Assemblers – FuzionSC Platform Solutions.

Automation Assemblers – Uflex Assembly Cells including **Flexbond Hot Bar Soldering System.**

Material Handling – Conveyors and other Material Handling Solutions.

Through-Hole – Axial, Radial and Jumper Wire Machines.

Broome Engineering – Remanufactured Machines that are completely remanufactured just like a new machine (you also get the security of a full one-year warranty covering non-wearable parts and labor).

Advanced Process Lab Services – APL has earned global respect as a valuable knowledge resource, helping manufacturers worldwide to improve yield, optimize product reliability, accelerated time-to-market, and complete lifecycle testing capabilities.

Advanced Process Lab Failure Analysis – Providing services with precision analytical tools and the knowledge of Topic Experts whose collective expertise covers every packaging and assembly technology.

Hover-Davis www.hoverdavis.com

The Feeder Company with over two decades of component delivery technology, engineering and manufacturing experience. Hover-Davis provides ultra-reliable and serviceable **component, label and semiconductor feeder solutions** for custom automation and most major SMT platforms, including Universal Instruments®, Fuji®, Panasonic®, SIPLACE®, JUKI®, MYDATA®, YAMAHA®, Samsung™, Europlacer and Assembleon®.
